

FACULTY PROFILE

NIBIN SABU

Assistant Professor

Department of Biomedical and Robotic Engineering

John Cox Memorial CSI Institute of Technology

Contact Information

- Email: nibinn28@gmail.com
- Mobile: +91 9447427333

Educational Qualifications

- Ph.D. (Ongoing), Noorul Islam Centre for Higher Education (2026–Present)
- M.E. Biomedical Engineering, Udaya School of Engineering, Anna University – 83.7%
- B.E. Biomedical Engineering, Noorul Islam Centre for Higher Education – 80.5%

Research Interests

- IoT in Healthcare
- Biomedical Instrumentation
- Remote Patient Monitoring
- Medical Device Innovation
- Embedded Healthcare Systems

M.E. Thesis

- An IoT Based Prototype for Monitoring and Controlling the Flow of Intravenous Fluid with remote monitoring, IV flow control, patient safety enhancement and smart healthcare integration.

Areas of Specialization

- Biomedical Engineering
- Medical Device Management
- Biomedical Instrumentation
- IoT Applications in Healthcare
- Student Mentoring

Professional Experience

- Assistant Professor, John Cox Memorial CSI Institute of Technology (2025–Present)
- Biomedical Engineer, Ananthapuri Hospital & Research Centre (2023)
- Biomedical Trainee, Ananthapuri Hospital & Research Centre (2023)

Academic Responsibilities

- Teaching UG Biomedical Engineering courses
- Course planning and material development
- Project guidance and mentoring
- Academic counselling and career guidance

Publications

- An IoT Based Prototype for Monitoring and Controlling the Flow of Intravenous Fluid – BIT Indian Journal of Engineering, Science and Technology (2023)
- A Device for Monitoring Electrolytes from Infant using IoT – IRJET (2025)

Conference Presentations

- NCRIESR'25: An IoT Infusion Pump
- ICSAETMS 2K25: A Device for Monitoring Electrolytes from Infant Using IoT

Faculty Development Programmes

- AICTE ATAL FDP – Design Thinking for Innovation and Entrepreneurship
- Engineering Entrepreneurship & IPR – KTU/KSUM
- Next Generation Wireless Communication Systems
- Advanced Materials for a Sustainable Future
- Machine Learning-Assisted CMOS Analog and VLSI Circuit Design
- Digital & Biomedical Signal Processing Tools, Trends and Research Impact

Certifications

- Certificate in Community Development
- Diploma in Computer Application

Technical Skills

- ECG, Ventilators, MRI, Defibrillators, Pulse Oximeters
- Calibration & Preventive Maintenance
- IoT System Development
- Medical Device Installation
- Project Management and Documentation

Languages

- English
- Malayalam
- Tamil
- Hindi
